Part I Writing

参考范文：

There is a growing awareness of the importance of digital literacy and skills in today’s world. In today’s rapidly evolving digital world, I fully agree that digital literacy and skills are very important to everyone.

For one thing, it is obvious that digital literacy is crucial for students. There are a large number of learning resources available online, such as great theses and excellent courses from prestigious universities. Students can draw on these rich resources to learn more knowledge and expand their horizons. For another, there is no denying that digital skills play an essential role in the workplace. We need to be proficient in using search engines to get more information and enhance our productivity with application software. Moreover, we cannot live a better life without digital literacy and skills. They can help a lot when it comes to getting around, shopping, socializing, and so on.

To sum up, digital literacy and skills are of great importance to our study, work, and daily life. We should try our best to improve our digital literacy and skills to navigate the digital world.

Part IV Translation

参考译文：

Traditional wedding customs in China have a long history, and since the Zhou Dynasty a complete set of wedding rituals has gradually developed, some of which are still in use today. Nowadays, Chinese wedding customs have changed a lot, but the ceremony is still very grand. The wedding venue is carefully decorated, with the main color of red, a symbol of jubilation, and many objects are placed to wish the couple happiness. At the wedding, the couple will bow to Heaven and Earth, to their parents and to each other, and then hold a banquet to entertain the guests and toast the guests to express their gratitude. Today, many young people still prefer the traditional Chinese wedding, to experience the unique and beautiful Chinese romance.
