Part I Writing

参考范文：

Nowadays more and more college students have come to realize social practice and academic learning are equally important. Some people hold the view that social practice plays an indispensable role in education, while others believe that it is not necessary for everyone to be involved in social activities. For me, I agree with the former.

Firstly, social practice can help complement academic learning. Through social practice, students can not only apply what they have learned in real-life situations, enhancing their understanding, but also get inspiration, which is useful for their academic learning. Secondly, social practice is beneficial to fostering teamwork, which is of great importance for the future job. Social practice exposes students to cooperation with different people. It is conceivable that only when students cooperate can they finish the task. Lastly, social practice makes students face different challenges. It encourages them to think critically and creatively to find solutions. This not only enriches their learning experience but also prepares them for their future roles in society.

All in all, knowledge and action should go hand in hand. Social practice and academic learning are of equal importance, which is the key to producing well-rounded individuals.

Part IV Translation

参考译文：

China is rich in bamboo and is the first country to exploit and utilize bamboo resources. Bamboo is extensively distributed and diverse in variety within China. Bamboo is highly versatile and is used in various aspects of production and daily life, such as the making of chopsticks, tables, and chairs, as well as the construction of bridges and houses. The Chinese have a deep affection for bamboo, and since ancient times, numerous scholars have created colorful literature and paintings on the theme of bamboo. The stem of bamboo is straight, symbolizing integrity. Bamboo exhibits remarkable vitality and adaptability, able to survive toughly no matter how harsh the environment is, thus embodying the spirit of unwavering perseverance. For thousands of years, bamboo has been esteemed as a representation of the character of the Chinese nation.
