Start of Autumn signifies the end of summer and the beginning of autumn in the Chinese lunar calendar. Firstly, Start of Autumn brings the change of weather, with the temperature gradually decreasing. When people see that leaves are turning yellow and falling, they realize that autumn has arrived, which is the so-called “knowing the autumn has arrived through the falling of one leaf”. However, the heat doesn’t entirely end at this moment. It usually lasts for a while, which is called "Autumn Tiger". Start of Autumn means a lot to farmers because at this time all kinds of autumn crops grow rapidly and begin to mature, and the season of harvest is coming.
