

## 2020 年 7 月份英语六级考试答案

### 一、写作：

#### 六级作文主题：

The best preparation for tomorrow is doing your best today.

明天最好的准备在于今天尽你所能。

#### 参考范文：

There is a famous saying that the best preparation for tomorrow is to do good work today. Simple as the saying is, it informs us that one doesn't need to worry about the future if he can seize the moment.

It is generally believed that taking immediate action is of great importance. Doing good work today enables people to achieve their great goals step by step. Assume a college student who is indulged in his wishful thinking of passing the CET-6 exam with a high score without any efforts and hardwork, and he will be devastated to accept the reality when he fails. The same thing may be said of some grown-ups who aspire to gain fame and fortune but never bother to put their splendid plans into practice immediately.

Therefore, by some means or other we must take action to pursue our goals. It is necessary for us to aim high but our behaviors should also deserve our dreams. We are supposed to put our efforts into every single day and never look down upon those little tasks. Only in this way can we fulfill our dreams.
